

Pendulum Resources LLC

A Service Disabled Veteran Owned Small Business

Pendulum Resources has an extensive background in providing highly qualified logistics and engineering subject matter experts (SME's) to the Army Sustainment Command (ASC) Headquarters and other commands within the Army and DoD. Our goal is to continue to exceed expectations and provide excellent logistics, engineering, and related support at all times.

We strive to constantly improve our performance by bringing additional benefits to the Government, and most importantly, to the Warfighters. We rely on our greatest assets, our personnel. These individuals, many of them disabled veterans themselves, offer unique backgrounds and experience that produces outstanding results and innovative solutions to the Army's most complex challenges. We also have a vast network of advisors who give Pendulum a ready expansion capability and a deep knowledge base.

Pendulum Resources is a part of the Pendulum Group of Companies which has provided support services to the military for many years.

Pendulum Resources has been awarded Army Field Support Brigade contracts to provide logistics and engineering support services for the Army Sustainment Command (ASC) Headquarters, Army Field Support Brigades, and Army Field Support Battalions.

We provide support throughout the United States at vital military installations including Fort Riley, Fort Bliss, Fort Polk, Fort Knox, Fort Hood, Fort Sill, Rock Island Arsenal, Fort Benning, Fort Bragg, Fort Stewart, Fort Campbell, Fort Carson, Fort Lewis, and Fort Drum.
